Soft Skills

- Problem Solving
- Communication
- Teamwork
- Organization
- Self-Motivation
- Flexibility

Human Languages

- French (Advanced)
- Mandarin (Beginner)

Computer scientist, software developer, and avid gamer with 2+ years of programming experience. My interests range from Roman history to quantum computing, with a passion for software development.

Projects

2019 *Personal Website*

- A personal portfolio developed in **HTML**, **CSS**, and **JavaScript**.
- Animated and mobile-friendly using **Bootstrap 4** and **jQuery**.

2018 *Battleship: Vengeance*

- A single player 2D Battleship game created in **Python**.
- Stores previous high scores and implements a custom UI created using the **Pygame** library.

2017 *Java Utility*

- A **java** program that supports user login and provides several smaller applications, including a calculator, a note-taking program, and a webpage opener.
- Capable of sending emails using the **javax.mail** library.

Education

2018 - present **University of Waterloo**

Bachelor of Mathematics, Computer Science

2014 - 2018 **Mother Teresa Catholic Secondary School**
